

# THE FIJIAN GOVERNMENT'S FREE WATER PROGRAM IS NOW AVAILABLE TO THOSE WHO QUALIFY.

## It's time to register!

If you are a WAF customer who has a combined household income of \$30,000 or less then you are eligible for the **Free Water program**.

### Free water

Free Water is Government's promise to provide 50 litres of free water daily to a WAF customer and 50 litres each for up to four dependents living in his or her household – a total of 250 litres per day per household.

To receive Free Water all you do is visit one of the 11 WAF offices Fiji-wide.

### Present your documents

Once there you must present documentary evidence of your household income (pay slips, TIN letters, Statutory Declaration).

Within 5 days of approved registration, you will begin receiving the Free Water allocation; it will be reflected in your next bill.

### Your bill

When you receive your normal quarterly water bill, the free water you have received will show that in addition to your normal charges, you would have received up to a maximum of 23,000 litres of free water.

### Good for 3 years

Your registration is good for 3 years. If at any time your household income exceeds \$30,000 you must notify us to discontinue your free water allowance.

*Clean Water for a Better Life.*
